

## The Benefits of HFI

- Supercharges the immune system
- Suffocates/destroys viruses & prevents its spread to healthy cells.
- Gives you 70 easily absorbed minerals & trace elements.
- Makes vitamin C obsolete.
- Works against shingles, Lyme's Disease and West Nile virus.

**HFI** contains the most natural and purest organic form of humic and fulvic acid made from rich dark deposits in the earth's soil. *These "life giving" nutrients consist mainly of powerful plant biomolecules found in vast humus beds.*

**HFI** is made of nutritional complexes are extracted, concentrated and naturally-enhanced for better bio-availability through state-of-the-art technology and processing, allowing them to create many of the building blocks that your body needs to live longer and healthier.

**HFI** can help you break the cycle of chronic illness by wiping out viruses. It surrounds both the virus and the cell it has infected, and 'smothers' it. This means that the viruses can no longer reproduce within your body.

**HFI** is made of a complex so powerful that one single molecule is capable of carrying up to 70 mineral and trace elements into the cells.

**HFI** contains humic acid that bonds to hemoglobin and causes it to carry more oxygen - creating a hostile environment for cancer, virus, and pathogens.

**HFI** contains humic and fulvic acids which help detoxify heavy metals from your body.

**HFI's** humates shore up the "friendly" bacteria in our GI tract while suppressing the unfavorable varieties

**HFI's** humates strengthen joints as they bond to our collagen fibers, assisting in the repair of fractured bones and damaged tendons. They have been shown to strengthen tendons, while they relieve swelling brought on by joint inflammation.
